

Tap Holder Maintenance and Repair Program

The most cost-effective way to increase your CNC machine productivity, reduce down-time, and reduce scrap while maintaining part quality is proper care and use of your toolholders. Toolholders are a small proportion of machining costs but can have a big impact on productivity and ROI.

Periodically, toolholders should be examined for wear and if necessary repaired to maintain cutting performance.

EMUGE offers:

- Full inspection and functionality evaluation
- Cleaning and replacement of critical wear components
- Replacement of lubricating fluids

For More Information Contact Emuge:

1800 Century Drive | West Boylston, MA 01583-2121 | 800.323.3013 | www.emuge.com

Holder Type	Service Charge List Price
Softsynchro #1	\$200.00
Softsynchro #3	\$200.00
Softsynchro #4	\$240.00

Please allow 1-2 weeks for maintenance. If holders are worn beyond normal maintenance, repairs will be quoted. Additional repairs for standard holders are quoted upon request.

Tap Holder Maintenance and Repair Form

Include This Completed Form Along With Your Used Tools

Ship directly to EMUGE. Your tools will be inspected upon receipt and you will be contacted by EMUGE with a final quoted price. The quoted price will be dependent on the quantity of tools that are actually repairable.

Ship To: Emuge Corp.
